SUMMARY

Recent MCA graduate **AI Full-Stack Developer fresher** with solid hands-on experience building responsive web apps using React.js, Node.js, Django, and Postgresql. Passionate about integrating generative AI and machine learning models (like OpenAI APIs or Google Gemini) into user-facing platforms and also following AI assist development. I am eager to apply my technical foundation to solve real-world problems in an innovative team.

TECHNICAL SKILLS

Technical Skills : Python | Django | Node.js | React.js | Postgresql | Rest APIs | Git & Github | Docker

Competencies : Problem Solving | Debugging | Efficient AI integration and Token utilization | Analytical Thinking

PROJECTS

Rural-Kart | Full-Stack E-Commerce Platform [Live Demo] [GitHub]

React.js, Django REST Framework, PostgreSQL, Redis, Celery, Razorpay, Docker

- Built a production-oriented e-commerce platform to help rural artisans, vendors,and customers with **React + Django REST**, JWT authentication, role-based access, product discovery, inventory, cart, checkout, and order management.
- Designed an **independent Buy Now flow** and implemented **transaction-safe checkout with `atomic()` + row-level locking** to maintain inventory/cart consistency under concurrent operations.
- Integrated **Razorpay with webhook signature verification and idempotent payment processing**, protecting order/payment state from repeated event delivery.
- Implemented **Celery + Redis asynchronous order emails**, AI-powered shopping assistance, Dockerized services, and GitHub Actions CI, and deployed to Render, Neon, Upstash, and Vercel.

InstiFlow | Multi-Tenant Institute Management SaaS [Live Demo] [GitHub]

Tech Stack: Django, DRF, React.js , MySQL, Tailwind CSS.

- Built a **Multi-tenant institute management SaaS** using React.js and Django REST Framework for managing students, fees, attendance, and institute-specific data.
- Developed REST APIs with Django ORM and integrated the React frontend with protected routes, dashboards, student profiles, attendance, and fee-management workflows.
- Implemented **JWT authentication using HttpOnly cookies with role-based access and tenant-aware API isolation**, ensuring users access data associated with their institute.
- Secure Email based forget password setup.

EXPERIENCE

Code Alpha | Python Programming *3 Months*

- Developed **3 Python-based projects** — Stock Portfolio Tracker, Hangman Game, and Chatbot — demonstrating programming fundamentals, problem-solving, and user-input handling.
- Implemented **stock value calculations, randomized word selection/game logic, and chatbot response handling** using Python.
- Used the internship to strengthen **Python programming, logical thinking, debugging, and application development skills** through hands-on projects.

EDUCATION

- MCA | Biju Patnaik University of Technology, Rourkela, Odisha. Cgpa: 8.00 | (2023-2025)
- BSc | Utkal University, Bhubaneswar, Odisha. Cgpa: 8.16 | (2020-2023)

CERTIFICATIONS

- Cloud Computing - NPTEL - IIT Kharagpur
- Internet Of Things - NPTEL - IIT Kharagpur
- Management Information System - NPTEL - IIT Kharagpur
